SCM's newest asset

ARLINGTON, TEXAS – April '2010 – Josh Womack joins SCM Real Estate as our acquisitions analyst and asset manager. Womack brings a strong background in public accounting from national and regional firms, as well as commercial brokerage experience with a national real estate firm. Bringing both knowledge of numbers and experience from the deal side of commercial real estate, Womack focus' our efforts on assets that are a great fit for SCM.

Womack graduated from Texas A&M University, with both a Master of Science and Bachelor of Business Administration in Accounting. While at A&M, he also co-founded an ongoing service organization that benefits the Bryon/College Station community. His passion for community service is still evident, as Womack currently serves on a trust fund board for the city of Dallas.

A Dallas native, Womack enjoys all that north Texas has to offer. When not finding great deals for SCM, he might be found working in the yard, playing a round of disc golf, or just enjoying some time around White Rock Lake with his wife and their four legged family member (who happens to be a chocolate lab).

SCM (Stewardship Commercial Management) Real Estate Services Inc. is a full-service commercial real estate firm providing clients with expert advice and strategies customized to their particular needs. Our services include investment sales & acquisitions, project leasing, asset & property management, and tenant representation.
